

**International Conference on Planarization Technology (ICPT 2022)  
&  
Clarkson University's Center for Advanced Materials Processing (CAMP)**

**POST-CONFERENCE INFORMATION FOR ATTENDEES**

Thank you for your participation in ICPT 2022, whether you were on-site at the Benson Hotel in Portland, Oregon or through our virtual venue on the Engagez platform. The event was a tremendous success with over 400 on-site and 238 registered virtual attendees! Here are a few details to wrap up the event and provide the most value possible to our attendees.

**RECORDED VIDEOS ACCESSIBLE FOR ANOTHER 90 DAYS**

One of the many benefits of the virtual venue is that all talks presented during the conference were video recorded and will be available for 90 days after the conference. Just log in to the web site below using the email address tied to your registration.

[www.engagez.net/icpt2022](http://www.engagez.net/icpt2022)

**MANUSCRIPTS**

All of the manuscripts submitted to the program committee are being organized to post into the proceedings archive of the NCCAUS. This will take a little time to complete, but they will be available in the proceedings section of the following link in a few weeks. Unfortunately, we do not have permission to post all of the slide decks, so please contact authors directly if you wish to obtain a copy of their slides.

<https://nccavs-usergroups.avs.org/>

**ATTENDEE CONTACT LIST**

All of the registered attendees are listed in an Excel file that may be downloaded from the Engagez web site. If you are a registered attendee but unable to access this site for some reason, please send an email to [support@icpt2022.org](mailto:support@icpt2022.org) to receive a copy via email.

We look forward to seeing you next year in Japan for ICPT 2023!
